SCI 2017 Organization Committees	ix
SCI 2017 Program Committee Members	x
Big Data Applications for Smart Cities Workshop Chairs and Committee	xi

Session 1: Smart City Big Data and Open Data

Data Driven Reference Architecture for Smart City Ecosystems	p1
<i>Mohammad Abu-Matar and John Davies</i>	
Bike Sharing Data Analytics for Silicon Valley in USA	p2
<i>Xiaoming Han, Pengtao Wang, Jerry Gao, Monil Shah, Ratan Kadam, Mukul Ambulgekar, Akshay Jarandika and Subhankar Dhar</i>	
Data-Driven Forest Fire Analysis	p3
<i>Jerry Gao, Kshama Shalini, Navit Gaur, Xuan Guan, Sean Chen, Jesse Hong and Medhat Mahmoud</i>	

Session 2: Smart Utilities and Services

Home Appliance Detection from Aggregated Energy Consumption Data on a Single Circuit	p4
<i>Yan Gao, Alan Schay and Daqing Hou</i>	
Smart Real Estate Assessments Using Structured Deep Neural Networks	p5
<i>Haiping Xu and Amol Gade</i>	
Cell Indicator System for Pharmacies	p6
<i>Pai H. Chou, Hua-Min Tseng, Ting-Yu Hsu, Cheng-Ting Lee, Chin-Chung Nien and Su-Yu Chien</i>	

Session 3: Smart City Networking & Infrastructures

Optimal Constrained Wireless Emergency Network Antenna Placement	p7
<i>Swapnil Gaikwad and David C. Anastasiu</i>	
Networking and Communication for Smart City Systems	p8
<i>Imad Jawhar, Nader Mohamed and Jameela Al-Jaroodi</i>	

A Service-Oriented Middleware for Cloud of Things and Fog Computing Supporting Smart City Applications	p9
<i>Nader Mohamed, Jameela Al-Jaroodi, Sanja Lazarova-Molnar, Imad Jawhar and Sara Mahmoud</i>	

Session 4: Smart Transportation I

Analyzing Social Media Communications for Correlation with Freeway Vehicular Traffic	p10
<i>Niyati Bichu and Anand Panangadan</i>	

UMAP: Urban Mobility Analysis Platform to Harvest Car Sharing Data	p11
<i>Alessandro Ciociola, Michele Cocca, Danilo Giordano, Marco Mellia, Andrea Morichetta, Andrian Putina and +Flavia Salutari</i>	

Automated Quantitative Analysis of Open-Ended Survey Responses for Transportation Planning	p12
<i>Karl Severin, Swapna S. Gokhale and Karthik C. Konduri</i>	

Session 5: Smart Transportation II

Human Factor Evaluation of In-Vehicle Signal Assistance System	p13
<i>Joyoung Lee and Slobodan Gutesa</i>	

Integrating Heterogeneous Freight Performance Data for Smart Mobility	p14
<i>Daniel Mejia, Natalia Villanueva-Rosales, Eduardo Torres and Ruey Long Cheu</i>	

Autonomous UAV Forced Graffiti Detection and Removal System Based on Machine Learning	p15
<i>Prakhar Nahar, Kang-Hua Wu, Sitao Mei, Hadiyah Ghoghari, Preethi Srinivasan, Yueh-Lin Lee, Jerry Gao and Xuan Guan</i>	

Session 6: Smart Environment

Adaptive Edge Analytics for Creating Memorable Customer Experience and Venue Brand Engagement, a Scented Case for Smart Cities	p16
<i>Anitha Ilapakurti, Jaya Shankar Vuppalapati, Santosh Kedari, Sharat Kedari, Rajasekar Vuppalapati and Chandrasekar Vuppalapati</i>	

Unsupervised Learning Techniques for HVAC Terminal Unit Behaviour Analysis	p17
<i>Maitreyee Dey, Manik Gupta, Mikdam Turkey and Sandra Dudley</i>	

Consensus-Based Anomaly Detection for Efficient Heating Management	p18
<i>Francesco Carbone, Angelo Cenedese and Cinzia Pizzi</i>	

Session 7: Smart Public Safety

Feature Engineering for Crime Hotspot Detection	p19
<i>Julio Borges, Daniel Ziehr, Michael Beigl, Nelio Cacho, Allan Martins, Simon Sudrich and Samuel Abt</i>	

Incident Analysis and Prediction Using Clustering and Bayesian Network	p20
<i>Geoffrey Pettet, Saideep Nannapaneni, Benjamin Stadnick, Abhishek Dubey and Gautam Biswas</i>	

Location-Aware Smart Campus Security Applicationp21
Kaikai Liu, Navjot Warade, Tejas Pai and Keertikeya Gupta

Session 8: Smart City and Social Networks

Twitter Vigilance: a Multi-User platform for Cross-Domain Twitter Data Analytics, NLP and Sentiment Analysisp22
Daniele Cenni, Paolo Nesi, Gianni Pantaleo and Imad Zaza

Event Detection for Smarter Citiesp23
Julio Borges, Henrik Hain, Simon Sudrich and Michael Beigl

Mining a MOOC to Examine International Views of the “Smart City”p24
Daniel Gooch, Lorraine Hudson, Matthew Barker, Annika Wolff and Marian Petre

Session 9: Smart City Apps and Graph Models

Civic Apps Competitions: Preliminary Findings on the Longevity and Quality of their Outcomesp25
Kiev Gama

A Smart City Development Kit for Designing Web and Mobile Appsp26
Claudio Badii, Pierfrancesco Bellini, Paolo Nesi and Mchela Paolucci

Graph-Based Anomaly Detection for Smart Cities: A Surveyp27
Simon Sudrich, Julio Borges and Michael Beigl

Poster Papers

Tapping Drone Technology to Acquire 21st Century Skills: a Smart City Approachp28
Thomas Menkhoff, Eugene K B Tan, Kan Siew Ning, Tan Gan Hup and Gary Pan

Research on Propagation of Passenger Flow in Urban Rail Transit Network for Large-scale Eventsp29
Yuan Liu, Mingming Wang, Qian Li, Yong Qin, Jian Li, Fang Sun and Minghui Zhan

Smart WDS Management: Pipe Burst Detection Using Real-Time Monitoring Datap30
Anastassia Paula Andrade Borges, Donghwi Jung and Joong Hoon Kim

Smart Services: A Case Study on Smarter Public Safety by a Mobile App for University of São Paulop31
João Eduardo Ferreira, José Antônio Visintin, Jun Okamoto Jr. and Calton Pu

An Edge-Based Smart Mobile Service System for Illegal Dumping Detection and Monitoring in San Josep32
Hema Begur, Mithila Dhawade, Navit Gaur, Pulkit Dureja, Jerry Gao, Medha Mahmoud, Jesse Huang, Sean Chen and Xiaoming Ding

Hot Spots for Improvements: Where to Implement New Green Spaces?p33
Gyula Kothencz, Márton Kiss and Andreas Petutschnig

Multi-Tenant Network Acceleration Scheme for OpenStackp34
Linh Paul Phan and Kaikai Liu

Edge Computing Embedded Platform with Container Migrationp26
Labhesh Deshpande and Kaikai Liu

Robotic Assistant for visually impaired using Sensor Fusion.....p35
Gaurao Chaudhari and Asmita Deshpande

2017 International Workshop on Big Data Applications for Smart Cities (BDASC 2017)

AN OPTIMAL METHOD FOR CHARGING STATION LOCATION BASED ON BIG DATA OF THE SOC AND IMMUNE ALGORITHM	p1
<i>Jian Xiong and Hong Gu</i>	
Exploring What Makes It a POI.....	p2
<i>Talha Yilmaz, Pinar Karagoz and Yusuf Kavurucu</i>	
Implementation of improved S-3PAKE protocol based on verifier	p3
<i>Sujin Cai and Xin Lyu</i>	
Research on Inventory Forecasting Based on BP Neural network	p4
<i>Lichuan Gu, Yueyue Han, Chengji Wang, Guiyang Shu, Juanjuan Feng and Chao Wang</i>	
Data Quality in Big Data Processing: Issues, Solutions and Open Problems.....	p5
<i>Pengcheng Zhang, Fang Xiong, Jerry Gao and Jimin Wang</i>	

Message from IEEE SCI 2017 General Chairs

The growth of cities is one of the most striking features of modern times. For the first time in human history, more than half of the world's population lives in cities. Contemporary cities are perhaps the greatest crucibles of creativity and prosperity the world has ever seen. They are also the sites of some of our deepest challenges. To address these challenges, attention has focused on developing "Smart Cities". The belief is that the application of Information and Communication Technologies will lead to the more efficient planning and operation of city services. The IEEE International Conference on Smart City Innovation seeks to explore and understand the innovations necessary to build and evolve smarter cities. It explores innovation across the myriad of services cities provide, including transportation, utilities, public health, public safety and social services.

On behalf of 2017 IEEE International Conference on Smart City Innovation Chairs and Committees, we are very pleased to welcome you to the 1st IEEE International Conference on Smart City Innovation. We thank the IEEE Computational Intelligence Society (CIS) for full sponsorship and the CIS Technical Committee on Smart World led by Professor Jianhua Ma, Hosei University Japan for strong support and advices. We also thank the IEEE Computer Society (CS) for technical co-sponsorship. The Steering Committee and Advisory Board members have provided excellent guidance to our Organizing Committee and PC Committee. The Executive Chairs, Didier El Baz and Jerry Gao, provided enormous guidance and support in the gestation of the conference. The PC Chairs, Haiping Xu, Sotoudeh Hamedi-Hagh, and Paolo Nesi, and the PC committee members have attracted, reviewed, and selected 16 quality papers from 57 paper submissions. The successful conference program preparation and quality proceeding publication the IEEE International Conference on Smart City Innovations have been due to the incredible efforts of the PC committee members, conference organization chairs, including the the Web Publication Chairs Zihao Jiang, Sazzad Hussain and Younghee Park, Registration Chairs, Xuan Guan and Xiaojun Yin, and the Publicity Chairs, Changi Tao, Stefano Rinaldi, Lei Chen, Arpan Kumar Kar and Toshiyuki Amagasa. In addition, the Local Arrangement Chair, Sam Zhang, SJSU student conference support team (Tianyu Cao and Swathi Nuggehalli Sudarshan), and other co-workers have made all the arrangements for ensuring quality logistics. We are also very grateful to the workshop chairs, Yong Qin and Maria Gemou, and the Poster and Demo Chairs, Kaikai Liu and Pengcheng Zhang. Without their dedicated effort, it is impossible to have these workshop programs and workshop paper publications.

In addition, we would like to express our thanks to Kenita Hidalgo at IEEE Conference Planning Department, Lisa O'Conner at IEEE CPS, Momoko Vanna and Stacy Negron-Sheckells at IEEE Finance Service Department for their great support. We hope that this conference will be intellectually helpful

for your current and future research and professional activities. We wish you a productive and truly enjoyable environment for developing novel ideas and visions in this area.

General Conference Chairs:

Professor, Mark S. Fox, Ph.D.
University of Toronto, Canada

Professor, Robert Morelos-Zaragoza, Ph.D.
San Jose State University, USA

General Executive Chairs:

Professor, Jerry Gao, Ph.D.
San Jose State University, USA

Dr. Didier El Baz
LAAS-CNRS, Franc

Message from IEEE SCI 2017 Program Chairs

On behalf of the Technical Program Committee, it is our pleasure to welcome you to the 2017 IEEE International Conference on Smart City Innovations (IEEE SCI 2017), held in San Francisco, USA. This conference provides a unique platform for multi-disciplinary researchers and teams, industry solution vendors, and government agencies to exchange innovative ideas, challenges, research results and solutions, as well as project experience reports and stories. The conference is organized jointly with six other IEEE international conferences including the IEEE Smart World Congress (SmartWorld 2017), the 14th IEEE International Conference on Advanced and Trusted Computing (ATC 2017), and the 14th IEEE International Conference on Ubiquitous Intelligence and Computing (UIC 2017). This allows IEEE SCI 2017 attendees to interact with a broader community that hopefully will generate new ideas and foster new collaboration.

This year we received 57 paper submissions from 25 countries. Through a rigorous review process where a majority (75 percent) of the submitted papers received three or four reviews, and the rest with five reviews, we were able to select 16 full papers for the general conference (28 percent), and 11 short papers and work-in-progress papers (19 percent). In addition, we received 12 paper submissions to the International Workshop on Big Data Applications for Smart Cities (BDASC 2017) and the 2nd IEEE International Workshop on Big Data Quality Assurance (BDQA 2017), out of which 6 papers were selected as workshop papers for conference presentation. These papers together with the posters are distributed over 12 sessions including 2 workshop sessions and 1 poster session. The sessions cover cutting-edge research, spanning from smart utilities and smart services to smart city big data and open data, from smart city transportation and networking to smart public health and smart public safety. We really hope that these sessions will provide good opportunities for the IEEE SCI 2017 attendees to interact with one another in informative and informal settings, with adequate time allocated for sessions in order to promote in-depth technical interactions, exchange of opinions, and networking.

We believe that the accepted conference and workshop papers and the posters will provide an interesting and diverse view of the state-of-the-art in research activities in the areas of smart cities and communities and their innovative technologies. We hope that the IEEE SCI 2017 proceedings will be a valuable reference for the future.

We would like to express our gratitude to all authors who submitted their work to our conference. We thank the referees and members of the technical program committee who offered their time and expertise to provide high-quality reviews, within a tight schedule. In total, 90 TPC members and a few external reviewers generated 237 reviews (3+ reviews per paper) for 69 papers in total submitted to the IEEE SCI 2017 and its associated workshops. In addition, we would like to take this opportunity to

thank all the members of the IEEE SCI 2017 Organizing Committee, who worked very hard to produce an excellent conference program. In particular, we would like to thank the Steering Committee (Jianhua Ma, Laurence T. Yang, and Jerry Gao), the General Chairs (Mark S. Fox and Robert Morelos-Zaragoza), the General Executive Chairs (Didier El Baz and Jerry Gao), the Publicity Chairs (Chanqi Tao, Stefano Rinaldi, Lei Chen, Arpan Kumar Kar, and Toshiyuki Amagasa), the Workshop Chairs (Magdalini Eirinaki, Xiaohui Yuan, and Chanqi Tao), the Poster and Demo Chairs (Kaikai Liu and Pengcheng Zhang), the Registration Chairs (Tianyu Cao and Shengqiang Lu), the Web Publication Chairs (Zihao Jiang, Sazzad Hussain, and Younghee Park), and the Local Arrangement Chair (Sam Zhang).

Last but certainly not the least, we must acknowledge the important contributions that the IEEE staff members have made. Their timely and dependable support and assistance throughout the entire process have been truly remarkable. It has been a great pleasure to work with all of them.

Finally, we welcome you all to IEEE SCI 2017 and really hope that you will fully enjoy the technical program we were able to put together for this promising edition of the conference, as well as your stay in San Francisco, the City by the Bay!

IEEE SCI 2017 TPC Chairs:

Haiping Xu,
University of Massachusetts Dartmouth, USA

Sotoudeh Hamedi-Hagh,
San Jose State University, USA

Paolo Nesi,
